

KNOWING THE ORCA

BY PASCAL

The Orca is the biggest member of the dolphin family. They are the kings and queens of the ocean because they are at the top of the food chain. Orcas have amazing echo location. Each orca pod has its own secret language, so scientists can tell where an orca is from based on the language it speaks. Orcas are super smart and are very curious about humans, they are known to swim up to boats full of people. Orcas can live up to 80 years old!

Stetson from 7th grade has 1 chore, Anna from 7th grade says she has "too many", Mrs. Beatty says she has all of the chores, Dr.J says he has "quite a few", Brylee from 6th grade says she has 3 chores, and last but not least Travis from 4th grade says he has 2 chores. Maine school has some busy bees!.
